139 cm (55") Full HD LED TV, Quad Core, Twin Tuner DVB-T/T2/C/S/S2

55PFS8209/12

Highlights

Ambilight 4-sided

You've created a home that's more than just a house, so why not choose a TV that is warm and inviting too? Our most amazing Ambilight experience ever projects an extra wide glow around four-sides of your TV onto the surrounding wall. Your screen seems much wider, your experience more enhanced…and your TV appears to float on air. Color, vibrancy and excitement move beyond the screen and into your living room, bringing with it a more thrilling, intense and immersive viewing experience.

Razor Slim profile

Sometimes less is more. Especially when it comes to the thinness of your TV. That's why Philips Razor Slim TVs has our thinnest, sharpest and most refined edge. From some angles you'll barely notice it's there…and yet it never fails to be the first thing people admire when they walk into the room.

Modern Edge Feet look

When setting out to create a new TV, our teams consider every aspect: from technology to design. Our new edge feet were engineered to create space beneath your TV where a traditional stand would normally sit, offering you a more immersive viewing experience. The effect? A TV that stands confidently with a nod to the future.

Perfect Pixel HD

Building on our award winning heritage, we've elevated High Definition Picture Quality to a whole new level. So whether you love the thrill of gaming or an evening of streaming your favorite films, Philips Perfect Pixel HD delivers unrivaled clarity. From richer more vibrant colors, to deeper blacks and brighter whites, every detail is a feast for your eyes.

800Hz Perfect Motion Rate

Nothing beats the adrenaline rush of gaming, fast paced sporting events or action films. That's why this Philips TV has 800Hz Perfect Motion Rate; so you'll enjoy the ultimate in smooth moving images. Because even though your pulse may jump, the image you're watching shouldn't.

Google Play™ store

Feel like a kid in a candy store. Enjoy a delicious assortment of apps, games, and all the goodies available from the Google Play™store like the Chrome™ browser, YouTube™, Google Movies, Google Music, social network apps and more…and all on your TV Powered by Android™.

Twin Tuner

Never fight about what to watch again. With a twin tuner on your TV you can watch your favorite series and a football game—and all at the same time. Our dual recording feature lets you watch one program while recording another so, you'll always have something great to watch later.

Smart Interaction

Communicating with your TV has never been easier or so much fun. Our totally intuitive remote control has all the usual perks like short cut buttons, a point and click mouse function and a keyboard on the flip side…and there's more. Want to lower the volume? A simple swipe of your hand (no remote necessary!) and the built in camera will recognize your gesture and adjust it accordingly. Don't feel like using the keyboard? Speak into your remote and the results will appear on your TV screen! Truly a Smarter experience for you.

Integrated Smart camera

Now you see it, now you don't! Philips intelligent camera stays discretely hidden at the bottom of your TV frame, so it never compromises the clean lines of your TV. When you start a Skype™ call, or use gesture control to communicate with your TV, it conveniently pops down with one simple click of your remote.

Apps, Cloud TV* & Explorer

Imagine an ever-growing Smart app portfolio on your TV. From YouTube to music, Video On Demand and more, you can customize which apps you add to your dashboard. Want more? Explore Cloud TV. With hundreds of premium international channels, it's a great way to watch your favorite shows and discover what's popular on the other side of the world. With Cloud Explorer, you can access Dropbox™ TM to view (and share) your favorite photos and videos on the big screen.

Modern white design

Because we know you want a TV that looks as great as it performs, our design team paired an elegant frame of sophisticated white and metal veneer to create a contemporary design that compliments any modern interior.

Ambilight 4-sided

Ambilight 4-sided: imagine your TV in a halo of light

You've created a home that's more than just a house, so why not choose a TV that is warm and inviting too? Our most amazing Ambilight experience ever projects an extra wide glow around four-sides of your TV onto the surrounding wall. Your screen seems much wider, your experience more enhanced…and your TV appears to float on air. Color, vibrancy and excitement move beyond the screen and into your living room, bringing with it a more thrilling, intense and immersive viewing experience.

Quad Core

Discover the power of Quad Core and Android

Fasten your seat belt; this is a TV engine like never before. With Android on your TV you'll navigate, make video calls, and chat in a way that is super fast, super intuitive, and super fun. The Android robot liberates the power of our Quad Core processor to get things done with lightning speed and total ease.

* Philips TV Remote app and related functionalities varies per TV model and country, as well as smart device model and OS. For more detail, please visit: www.philips.com/TV.
* For smart TV app, visit www.philips.com/TV to discover the services offering in your country
* Cloud TV offering depends on country availability and regulations
* Compatibility depends on Wifi Miracast certification & Android 4.2 or later. For more details please refer to your device documentation.
* USB recording for digital channels only, recordings may be limited by broadcast copy protection (CI+). Country and channel restrictions may apply.
* Android, Google Play and other marks are trademarks of Google Inc.
* The TV is compliant with any 200mm x 200mm VESA wall mount. To achieve an optimal ambilight experience, we advise to use THIN 225 or THIN 245 from Vogel's. For more info, please visit www.vogels.com
* Parents should monitor their children during 3D viewing and ensure they do not experience any discomfort as mentioned above. Watching 3D is not recommended for children under 6 years of age as their visual system is not fully developed yet.
* The TV supports DVB reception for 'Free to air' broadcast. Specific DVB operators may not be supported. An up to date list can be found in the FAQ section of the Philips support website. For some operators Conditional Access and subscripction are required. Contact your operator for more information.
* Energy consumption in kWh per year, based on the power consumption of the television operating 4 hours per day for 365 days. The actual energy consumption will depend on how the television is used.
* EPG and actual visibility (up to 8 days) is country and operator dependent.
* (Philips) only compatible with specific Philips player device.
